HENDRE SCHOOL IMPROVEMENT PLAN 2023 - 2024

Our School Development Plan (SDP) is a pivotal document in the life and activities of our school. It is directly linked to ongoing self-evaluation and focuses on the achievement and wellbeing of pupils through teaching and learning, and leadership and management.

There are many strands to what we do. The Development Plan anchors those strands within a context – that of maintaining and consolidating what is good and successful and building upon it to generate further success. It provides a framework, identifying things that are necessary to do in the short term and those that can be planned for future years. The SDP generates a sense of purpose and direction and is used to prioritise actions in order to use staff development time effectively so that it has the most impact on children and the standards they attain. Performance Management targets for all staff, including the Senior Leadership Team and Headteacher are linked to the SDP and targets set are rooted within this document.

All staff and members of the Governing Body are involved in its preparation. It is available for parents to read. All can share in the forward movement of the school, helping to create a climate for improvement and achievement.
